About DeltaQ

DeltaQ is a leading provider of HVAC, cold room, cleanroom, and commercial kitchen equipment solutions. We specialize in delivering customized systems for a variety of industries, ensuring optimal performance, energy efficiency, and reliability. From design and installation to maintenance and support, we offer comprehensive services tailored to meet the unique needs of our clients. Whether it's advanced HVAC systems for comfort and efficiency, temperature-controlled cold rooms, sterile cleanrooms, or high-performance commercial kitchen equipment, DeltaQ is committed to providing cutting-edge technology and exceptional service to enhance the functionality and safety of your environment.

Two way cassette

Four way cassette

Round Cassette

Outdoor units for VRF

•MULTI V 5 (Dual Sensing Control, Large Capacity)

•Features: Dual sensing control, large capacity outdoor unit (up to 26HP), black heat exchanger, flexible installation with large capacity and wide operation range, suitable for large spaces, high-rise buildings, and individual control buildings.

•MULTI V 5 (Compact, Space-saving)

•Features: Saves floor space, flexible design for slim, light, and wide applications (4-14HP), and up to 23 indoor units for small/medium buildings.

•MULTI V WATER IV Heat Pump

•Features: High-efficiency system, indoor installation, low noise level, for high-rise buildings, water-sourced systems, and aesthetic buildings.

•MULTI V WATER IV (Cooling Only)

•Features: For water-sourced systems, cooling only option, low noise level, and suitable for individual control buildings.

Cleanrooms

At DeltaQ Solutions, we specialize in designing cleanrooms for industries such as pharmaceuticals, biotechnology, electronics, and healthcare. Our cleanrooms provide a controlled environment with minimal airborne particles, ensuring product integrity and supporting critical processes. We offer various cleanroom grades based on customer requirements, featuring HEPA filtration, precise airflow, and customized temperature and humidity control to meet industry standards and ensure optimal performance.

COLD ROOMS

Cold rooms are specialized, temperature-controlled spaces designed to store perishable goods, such as food, pharmaceuticals, and chemicals, at low temperatures. They are essential in industries like food processing, healthcare, and logistics to ensure the longevity and quality of sensitive products. By maintaining precise temperature and humidity levels, cold rooms prevent spoilage, microbial growth, and degradation, ensuring compliance with safety and quality standards. Their versatility and reliability make them a cornerstone of modern supply chains and industrial operations.

Commercial Kitchen Equipments

At DeltaQ Solutions, we provide top-quality commercial kitchen equipment tailored to meet the needs of hotels, restaurants, and industrial kitchens. Through our partnership with **Middleby**, a global leader in commercial kitchen solutions, we offer cutting-edge products that ensure superior performance, efficiency, and durability. From cooking equipment to refrigeration and food preparation systems, our solutions are designed to enhance productivity, maintain hygiene, and deliver long-lasting value for your kitchen operations.
